

## **CDF/D0 Search and Secure Guard Responsibilities**

As a member of the search and secure team, your duties will entail standing guard in one of four possible locations. While you are standing guard, it is your responsibility to pay particular attention to the specific areas assigned to you to ensure that no non-search and secure team personnel enter, or pass through your areas of responsibility. The search and secure of the collision hall is a very involved process and could take as much as an hour to finish depending on the circumstances. It is of the utmost importance that you pay attention to your assigned duties for the entire duration of the search and secure.

If at anytime you see non-search and secure personnel enter or pass through your area of responsibility, you **MUST** immediately contact one of the Beams Division Operations Department members of the search and secure team.

Beams Division Operations Department personnel will direct you to the specific location assigned to you. They will also explain your exact responsibilities for that location in accordance with the approved search and secure procedure.

---

I have read and fully understand my responsibilities of being a search and secure guard. I will perform my duties as a search and secure guard as instructed by Beams Division Operations Department personnel.
